

CONTROLLED ALL NIGHT OUTDOOR ELECTRIC LIGHTING SERVICE

I. AVAILABILITY

Available at all points in Washington-St. Tammany Electric Cooperative, Inc.'s service area where existing facilities of suitable phase and voltage are adjacent to the premises to be served subject to the established rules and regulations of the Cooperative. Not available for temporary service.

II. APPLICATION

To electric service for the operation of overhead automatically controlled all night outdoor lighting service for lighting private streets, alleys, or any area of the premises. The lighting fixture shall be a luminaire with outer globes open bottom glassware with a mercury vapor white lamp or equivalent control device, mounted on a 30 inch bracket or mast arm erected on Cooperative-owned or controlled poles where the fixtures and equipment are owned, maintained, and serviced by the Cooperative.

III. TYPE OF SERVICE

The lamps shall burn from dusk to dawn. Cooperative shall furnish lamp renewals and install same. All necessary service and maintenance shall be furnished by the Cooperative during regular working hours of the Cooperative.

In case the Cooperative shall at any time or times be prevented from delivering electric energy hereunder by causes beyond its control, it shall not be liable in damages to any governing body, person, firm or corporation.

IV. Billing

For a lamp located on high side of meter:  
\$ 7.20 per lamp per month (175Watt MV or 100 Watt HPS)  
\$10.70 per lamp per month (250Watt HPS)  
\$14.20 per lamp per month (400Watt MH or 400 Watt HPS)  
\$26.20 per lamp per month (1000Watt MH or 1000 Watt HPS)

For a lamp located on load side of meter:  
\$ 4.20 per lamp per month (175Watt MV or 100 Watt HPS)  
\$ 6.20 per lamp per month (400Watt MH or 400 Watt HPS)  
\$ 7.45 per lamp per month (1000Watt MH or 1000 Watt HPS)

V. POWER COST ADJUSTMENT

The above charges shall be increased as determined under Power Cost Adjustment Clause PCA-WST. Mercury vapor lamps will be charged at 74 kWh per month. High pressure sodium lamps will be charged at 45 kWh (100Watt), 151 kWh (400Watt) and 350 kWh (1000Watt) per month. Metal Halide lamps will be charged at 151 kWh (400Watt) and 350 kWh (1000 Watt) per month.

VI. TAXES

All sales taxes or other taxes levied on the sale of electric power by any governmental authority shall be

added to the above rate schedule in accordance with the applicable laws.

VII. TERMS OF PAYMENT

The above rates are net, the gross rates being 5% higher on the bill. In the event the current monthly bill is not paid within twenty (20) days from the date of the bill, the gross rates shall apply.

VIII. CONTRACT PERIOD

Not less than one year
